Capstone Lecture 3:
Retrospectives & Sprint Planning
Bill Laboon

Retrospective

- Please discuss:

  - What went well with this sprint?

  - What did not go well this sprint?

  - What can we do better next sprint?

  - How can we do it better?

Sprint Planning

- Look at Product Backlog

- Determine which user stories can get accomplished in next sprint

- Determine who will work on which user stories

- Write this down! You may want to add a file in the repository keeping track of this.

Show Me Afterwards

- New scrum master should show me -

  - Notes from retrospective

  - Sprint planning results
